PERSONAL EMPOWERMENT

Testimonials from course participants

“Karoline’s course has drawn out of me a much greater awareness of the old habits that have been playing out in my life. In seeing these I have been presented and empowered with choices to do things differently and more constantly toward greater authenticity, freedom and joy in my life. I am leaving with a passion to live more fully and to actively commit to keeping health in my life.”

“My life was a rut of depression and sadness – Karoline’s course awakened me to what I deserve to have as a human being in my life. As a result I am involved in a new career, have lost 1 stone, I have a new boyfriend and better understanding of my family and friends. I feel joy for the first time in 9 years (That’s NINE years!) Thanks Karoline, you gave me back my life and I love you for it.”

“I now have an incredible level of awareness, recognise my own self-sabotaging behaviour immediately. My default no longer has the power. I don’t blindly repeat the same behaviour that has held me back. My eyes are now open to my passions, my talents, and knowing these are now more important than fears!”
